Dear members,

Thank you for taking the time to contact me about your concerns regarding the proposed Tim's Thicket Liquid Waste Facility upgrade.

I am very supportive of your campaign to prevent any further environmental damage in this area and I share many of your concerns. I recently wrote to the Minister for Environment, Hon Stephen Dawson requesting an update on this issue.

The Minister has informed me that the Environmental Protection Authority (EPA) is currently assessing the upgrade proposal. This assessment will consider the likely environmental impacts of the proposed upgrade. Once the assessment is complete, the EPA will provide the Minister with its report and release it for public appeal.

I am confident that this process will see the environmental concerns of the community put front and centre in the consideration of this upgrade.

I have attached a copy of the Minister's response for you to read.

Yours sincerely
